

BE CYBER AWARE

1

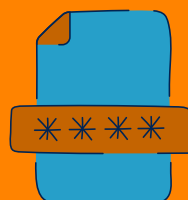

NEVER DOWNLOAD UNAUTHORISED CONTENT

Ensure downloads are authorised by IT.

2

USE STRONG PASSWORDS

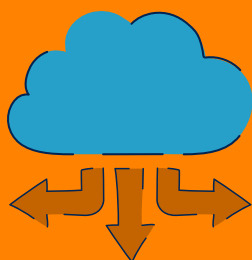

Change your password regularly and use a complex password. Use multi factor authentication where possible. Don't write down or share your password.

3

DON'T CLICK ON LINKS IN EMAILS

Don't click on links from emails. Either verify with the sender or go directly to the website. Or ignore.

4

LOCK YOUR COMPUTER

Always lock your computer when you are away from your desk.

5

KEEP YOUR COMPUTER UP TO DATE

Ensure your computer is running the latest software updates and running anti virus and anti malware. Check with IT if necessary
