

Compliance Manager

What is it?

The Compliance Manager allows you to assign any document to staff and enable the following interactions

- I have read and understood
- I have used this in practice

I have read and understood

A simple way to ensuring that staff confirmed that they have received, read and understood the issued document

I have used this in practice

If staff have confirmed that they have read and understood, you can also request a short statement explaining what has been done to achieve the outcomes desired in the document

Adding documents

1. Click on 'Compliance Manager' on the dashboard

By default all existing documents are showing, with the number of users assigned and the status of interactions.

2. Click the blue “Upload Document” Button to add a new document

Add users to the document

1. Select the user icon next to the document
2. A list of users in the schools you manage will appear.

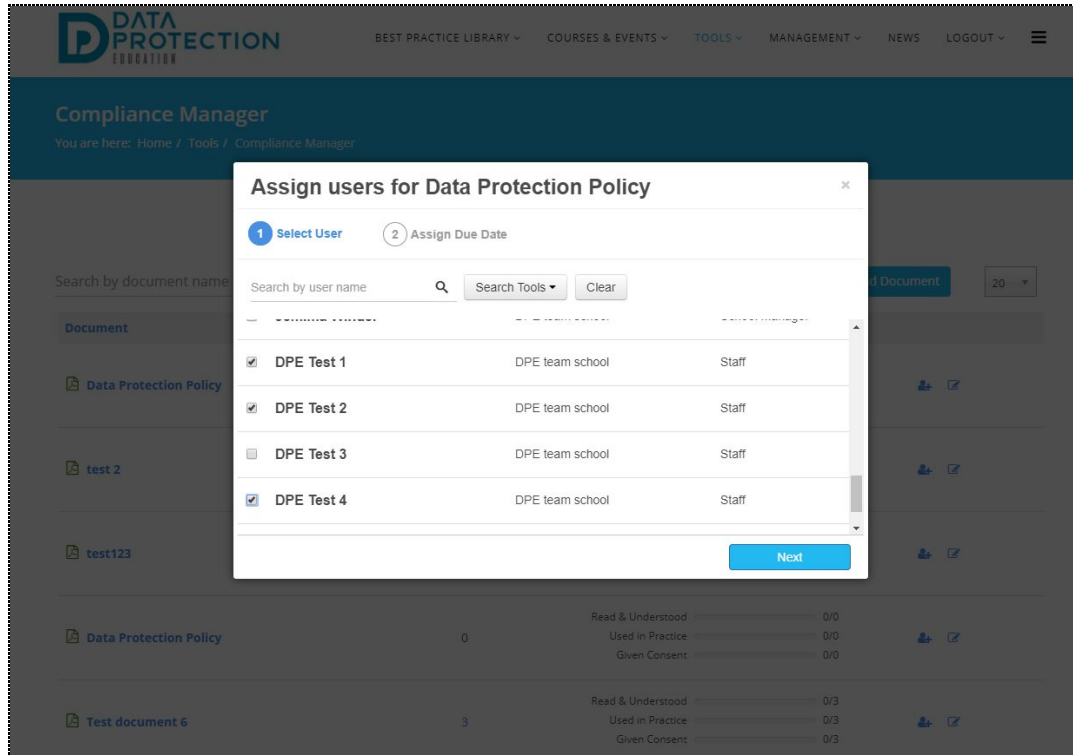

You can filter (Search tools) by school and role.

Select the users to whom you wish to assign the document and click 'Next'.

The next screen asks for the due date, so only select users in batches with the same due date.

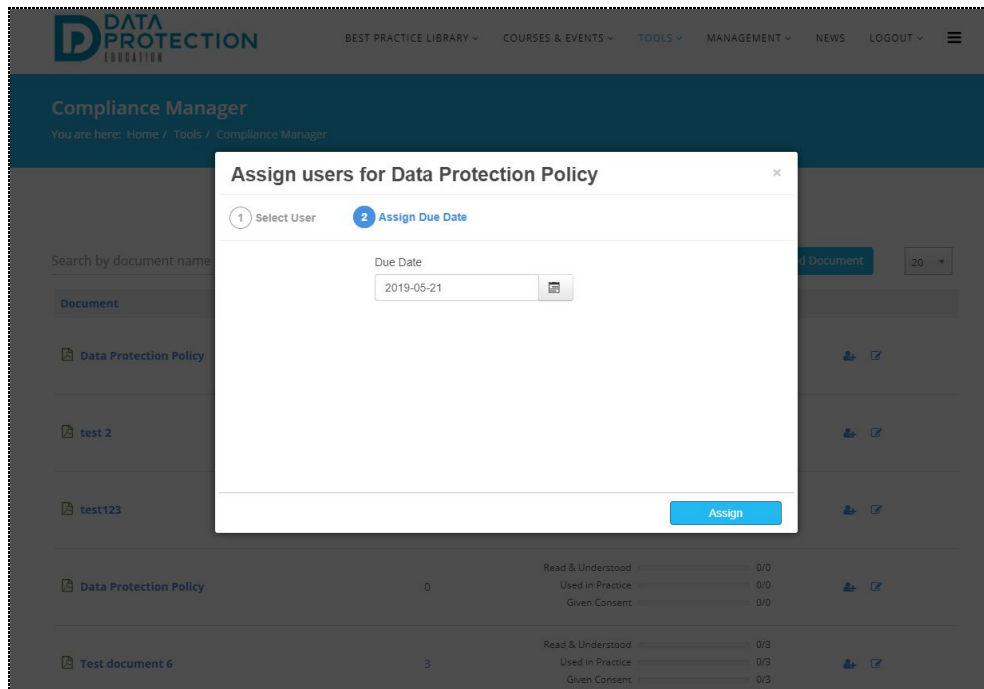

Assign users for Data Protection Policy
