

How to change a user's password

Created on Mar 24, 2023 by Tammy Buchanan

This step by step guide shows how to change a user's password. The password change can be done by an organisational administrator.

1 Go to the Knowledge Bank Dashboard

Scroll down to the 'Administration' section at the bottom of the dashboard and click on the title of the 'Users' widget.

The screenshot shows the Data Protection Education Knowledge Bank Dashboard. The top navigation bar includes the logo, contact information (0800 0862018, dpo@dataprotection.education), and the current date and time (Mon - Fri 8:00 - 17:00). The main content area features several widgets. The 'Administration' section is highlighted with a red box and contains four sub-widgets: 'SLA Activities', 'Users', 'Reports', and 'To-do Manager'. The 'Users' widget is further highlighted with a red box and shows a list of users with their roles.

SLA Activities	
3	Incomplete
2	Complete
1	Cancelled

Users	
18	Staff
14	Admin
5	Trustee

To-do Manager	
145	Total To-dos
26	Complete
118	Overdue

2 Find the user

Either find the user in the list or by typing their name or part of their name in the search field. Select the user by clicking on the blue text of their name.
